

Dusty Springfield, Sea And Sky

The sea goes on forever
The sky goes on forever
It's all a vast unmeasured shore

If you just think about it
The waves are always sighin'
The sea birds always cryin'
Where time means nothing anymore

If I could I would take up the sea
Join hands with the sky
I'd melt with the shore
They're part of all I adore

And all the love we will share
One moment more, ooh, yeah, yeah, yeah

Ahh, the sea goes on forever
The sky goes on forever
It's something no-one can deny
If they go on forever
And they go on forever
Then why not you and I?
Like sea and sky
Sea and sky
Sea and sky
