

# Duxius, Good Move

As if I was in a quiz  
or a test  
as if I was playing chess  
I hold on to  
the illusion  
sometimes get lost in confusion  
I'm looking for a true  
or a false  
juggling choices like  
juggling balls  
I'm scanning for a zero, or one  
while my conclusions come  
undone

And I can't make up my mind  
there's no right path to find  
and all that I can achieve  
is to make a choice and believe  
the future will prove  
was that a  
good move

Diagnose my disease  
give it a name  
show me where I went wrong  
in the game  
what's the equation that I want  
to resolve  
tell me what to look up  
and whom to consult  
certainty is the thing that sometimes  
you can't even hope for in science  
so don't expect to find it  
in the chaos of your mind

And I can't make up my mind  
there's no right path to find  
and all that I can achieve  
is to make a choice and believe  
the future will prove  
was that a  
good move
