

DVSN, What's Up (feat. Jagged Edge)

Biggest mistake I made
Shouldn't of let you go
Instead I'm wondering
I should let you know
When I say love I mean love
Aint no fuckin shame in it
That ain't your last name
If my last name ain't in it
This shit is been a process
It's playing with my conscious

That I'm laying with someone else
Feel like I'm by myself
Thinking in my mind won't rest
I just want to text my ex
I'm just seeing what's up with you?
What's going on?
Who's fuckin with you?
Who's time you're on?
Thinking what's up with you?
What's going on?
Who's fuckin with you?
Where'd we go wrong?

Who told you it's okay not to call me right now?
Who told you, you should be at these parties right now?
I know you're only acting happy publicly
You could've called me if you needed company
But you runnin' round with what his name
Fuck his name
We ain't cut the same
He don't touch the same
He don't fuck the same
He don't love the same
Now I'm just

That I'm laying with someone else
Feel like I'm by myself
Thinking in my mind won't rest
I just want to text my ex
I'm just seeing what's up with you
What's going on?
Who's fuckin with you?
Who's time you're on?
Thinking, what's up with you?
What's going on?
Who's fuckin with you?
Where'd we go wrong?

How long has it been?
You didn't even check up on me
How many nights in a row are you in the streets?
Guessing I'm the one to blame
My behavior changed
I should've just called you that night
I prolly could've saved us
from the fake love and the empty little link ups, wait
I always hate it when you say
N** don't learn nothing until it's too late

That I'm laying with someone else
Feel like I'm by myself
Thinking in my mind won't rest
I just want to text my ex

I'm just seeing what's up with you
What's going on?
Who's fuckin with you?
Who's time you're on?
Thinking, what's up with you?
What's going on?
Who's fuckin with you?
Where'd we go wrong?

I'm in here with someone else
Feel like I'm by myself (when we, when we go wrong)
Thinking that my mind won't rest
I just wanna text my ex (what's up with you, what's going on)
I'm just seeing what's up with you?
What's going on?
Who's fuckin' with you?
Who's time you're on?
What's up with you?
What's going on?
Who's fuckin' with you where'd we go wrong
(What's up with you, what's going on)
(What's up with you, what's going on)
