

Dwight Yoakam, What Do You Know About Love

Hey baby, what'd you know about how it feels
Honey, what'd you know about if that's real
Baby, what'd you know about the whole deal
And what'd you know about love

Hey baby, what'd you know about all its dreams
Honey, what'd you know about Cupid's schemes
Baby, what'd you know about what that means
And what'd you know about love

I've been longing to find
Another heart that would know
And it seems like yours just might

Hey baby, what'd you know about its first blush
Honey, what'd you know about the caught up rush
Baby, what'd you know about what to trust
And what'd you know about love

My heart's so often been wrong
That it still can't be sure if this
Finally did come along

Hey baby, what'd you know about all its dreams
Honey, what'd you know about Cupid's schemes
Baby, what'd you know about what that means
And what'd you know about love

Hey baby, what'd you know about how it feels
Honey, what'd you know about if that's real
Baby, what'd you know about the whole deal
And what'd you know about love

Baby, tell me what'd you know about the whole deal
And what'd you know about love
