Dying For Extra Lives, Sweat Nightmares

Repair me Fill me up I cant take much more of this ache The ache that you caused My dreams are always the same They dont stop Sweaty nightmare haunt me...

Crack my ribs and repair this broken heart your desearting My heart is on the floor Why dont you step on it When I think of all the things youve done

Teary eyed when I wake up Please say you care this much You swallowed the key that unlocks these chains I hope it burns u inside Inhale your mistake Sweaty nightmare haunt me...

Crack my ribs and repair this broken heart your desearting My heart is on the floor Why dont you step on it When I think of all the things youve done
