

Dynamite Boy, No Way Out

it's been said we forget ahead
you know we can't be wrong
time you knew that i'll be true
cuz we been friends so long
won't fall apart
you're in my heart
it's hit or miss
i'll tell you this
there's no way
out cuz without a doubt
you will always want to be with me
and i have no fear that year after year
you will always want to be with me
sitting here thinking dear
you have to be the one
don't be blue my amy-lou
i'll be home in a month
just promise me you will always be there
when i need someone to hear me
and i promise you that i will be here too
