

Dynamite Boy, Photograph

Take
a photograph of me
watch me as I leave
cuz I won't be coming back.

Don't
turn the other cheek
you and I should speak
so you won't misunderstand
blue valentine in my car.

Can't
take another day
you're treating me this way
and I take all the blame
Blue
valentines ago
you sometimes make me think
that we are just the same

Blue valentine in my car
Singing
strike these words from this song
tell everybody there
tell all of our friends
that I was wrong

Wait
a moment and just breathe
I think you will agree
that sometimes we can be wrong.

Flight
away from all your pain
losing all that's gained
and you fear you don't belong.

Blue valentine in my car
singing
strikes these words from this song
tell everybody there
tell all of our friends
that I was wrong.

Don't tell me how to do learn it on my own
screaming on the phone
planning to do no good
keep your eyes on the prize
it will get away with cheating you
something you can't do
you never had a hope.

Blue valentine in my car
singing
strike these words from this song
tell everybody there
tell all of my friends that I was wrong
strike these words from this song
(strike these words from this song)
tell everybody there
tell all of our friends that I was wrong
