

# Dynamite Boy, Promise

Don't make it serious  
and don't feel down.  
It isn't good for us  
Its not so bad  
I know its hard  
with what they did  
it seems they have no heart  
but don't give up on us  
no time for fear or guilt or hate  
its not for us to sit and wait  
for anyone to show their face  
to show true face.

We'll never be severed  
by the ones that make you feel like you don't belong  
we're better than ever  
as long as we stay just like we are.

I know the distance  
can seem so far  
from what we want most  
you know what I mean  
but don't be sad.  
We'll make it through all the bad times  
we know what's best for us  
no time for fear or guilt or hate  
its not for us to sit and wait  
for anyone to show their face  
to show true face.

We'll never be severed  
by the ones who make you feel like you don't belong.  
We're better than ever  
as long as we stay just like we are.

We'll never be severed  
by the ones who make you feel like you don't belong.  
We're better than ever  
as long as we stay just like we are.

We'll never be severed  
by the ones who make you feel like you don't belong.  
We're better than ever  
as long as we stay just like we are.
