

# Dynamite Boy, True Shit

Don't trust me  
Don't trust them  
Don't you even trust your friends?

Cuz you'll die, no one gives a damn  
You'll die, no one knows your name  
You'll die, everybody does, cause hell is other people and if

You think, you're really pretty smart, well..  
You're wrong, like everybody else and  
You'll know how right I can be cause hell is other people and if

[Chorus:] You know what it's all about and how to get out  
What it's all about and how to get out then  
You'll know hell is other people, hell is other people

[solo]

You'll die, no one knows your name  
You'll die, no one gives a fuck  
You'll die, cuz everybody does, hell is other people and if

You think, you're really pretty smart  
You're wrong, like everybody else  
You'll know, how right I can be, hell is other people

[Chorus x2]
