

E-Type, Forever Wild

We are forever wild
Come follow me now.....
Hear how....this bell tolls just for you
Don't fight what this will bring you
This is what to do
We're starting out from low
Time to go insane
Take a step into the fast lane
Rattle all your chains
It's Friday in your veins, believe it
We're going, you know it
Nothing can stop us from now
Too well-bred, a pinhead?
Hate to disappoint you, but
I'm not that kind of guy
We are forever wild
Let's change the night into day
We are forever wild
I've come to take you away
We are forever wild
Get ready now and forever
You know, "This is the way"
Everybody go PoP up now....
Face it the gathering is here
I know you're out there somewhere
Can you feel the fear
Grow when you get near
You're up against the wall
You must make up your mind now
Can you hear the call
We've got to give it all, believe it
We're going, you know it
Nothing can stop up from now
Too well-bred, a pinhead?
Hate to disappoint you, but
I'm not that kind of guy
We are forever wild
Let's change the night into day
We are forever wild
I've come to take you away
We are forever wild
Get ready now and forever
You know, "This is the way";
