

# E-Type, Lost And Goodbye

Do you remember when we were so tender  
I long for them days  
You were forgiving and we were just living  
In clouds night and day

Hard to believe when I see  
What we've become you and me  
You made me feel but I know  
That I will follow wherever you go

When love fades away  
You just don't know how to go on  
When love fades away  
And the magic we had is long gone  
You just don't know  
Who you really are  
Until the day that you find you are lost

You are lost and goodbye

Time passing by  
While I'm wondering why I am here  
without you

You were my startlight  
Now I don't know how to go on  
without you

Why can't I turn back time  
Now that I've learned from my lies  
Oh, it just burns my eyes  
To see you with somebody else  
by your side
