

# E-Type, When Religion Comes To Town

When I hear the news my head starts spinning  
I'm sorry  
I ask myself what is this I feel so low  
could it be that the whole wide world is mad,  
I'm worried  
I ask myself can we still live close together...  
When religion comes to town  
I wonder how  
something so good can be misunderstood  
invented to bring understanding to the world  
it's being used in the name of greed and warfare  
we must reclaim it now and come together...  
When religion comes to town
