

Eagles, Chug All Night

You scare me a bit,
but that's all right
you know when I want you
most every night
And I've been meaning to tell
you baby that it makes no sense
still I'm finally convinced
yeah yeah
I believe we could chug all night
I believe we could hug all night
The band is loose and the groove
is right you're so much woman I
believe we could chug all night
On the day that I die, well
I just might scream
If I'm alive in the morning
I'll be alive in a dream
You better listen to me baby
Cause you know that I'm hung on you
till I'm blind and black and blue
No one else will do
I do believe we chug all night
I believe we could hug all night
The band is loose and the groove is right
You're so much woman I believe
we could chug all night
No woman ever do what you do
High on a pleasure wheel
No devil ever cast a voodoo
so long and dark and real
We're gonna do a little chugging
We're gonna do a little hugging
The band is loose and the groove is right
I'm wired for sound
Are you wired for light?
And you're so much woman,
I believe we could chug all night
I said a yeah yeah yeah
yeah yeah
Woo! It's only midnight baby
Come on and do it to me
