

EAGULLS, Nerve Endings

As long as you gonna sex for me
Behind my awkward smile
I've never listened, I've never listened your type

Stop singing that verse, stop feelings like that
Stop singing that SONG
You stand on this, you stand till this world dies

Can't find my head

No music, no sex, no immediate out just for my health
I'm still nervous, I'm still nervous, I'm drunk
This cold feeling, nervous, my feelings spread out
I feel like that

Still never endings
Still never endings won't die
Come find that out
Come find that out
No one, nowhere
Nowhere, no one
Come find that out
Nowhere, nowhere
Come find that out
Nowhere, nowhere
Come find that out

I could never have a problem with a feeling
All behind, just like that

I'm still lonely, I'm still lonely in my head
I'm still feeling nervous, these feelings go worse
I stay trying

My never endings
My never endings won't die
Come find that out
Come find that out
No one, nowhere
Nowhere, no one
Come find that out
Nowhere, nowhere
Come find that out
Nowhere, nowhere
Come find that out

It's no original sin, can't see while I go through my heart
My nerve endings
My nerve endings won't die
I'm hearing about this drug, can't hear nothing else
My feelings cry

My never endings
My never endings won't die
Come find that out /9x
