## Earth Wind And Fire, Beauty

Earth Wind & amp; Fire

Oh when I look around me This old world seems so troubled to me \* Does no one see The beauty that surrounds them Take a look around you now (sometimes) Pretty little blossoms, oh yeah Just as sweet as can be, yeah yeah (You know) It troubles my mind These troubled times we need love You know it troubles my mind These troubled times we need love The world needs love, let there be love Open up your heart and love more open up Open up your heart and love more open up Open up your heart and love more open up Open up your heart, give a little love love, love, love, love

(\*Repeat)

\*\*It troubles my mind These troubled times

We need love, love, love, yeah

(\*\*Repeat and fade)
