

# Earth, Wind And Fire, Divine

Philip Bailey, Roxanne Seeman & Ken Barken

You're a mystery, you're a true work of art  
Like an answered prayer, like a light in the dark  
Ooh, I'm in ecstasy when you're next to me  
It's the closest thing to heaven I could be

Tell me everything about you  
Wanna get into your mind  
Thinking this could be forever  
Day and night, rain or shine

Chorus 1:  
Divine  
Girl, the way you know you make my sunshine  
From the shadows you can make the moon climb  
Ooh, the way you're loving me is so divine

I'm remembering how the night was so clear  
You were whispering "I'm so glad you are here"  
I've always heard that love makes a man feel bliss  
But I never dreamed that I could feel like this

Everything about you, baby  
Got the full effect on me  
Never seen a woman made so perfectly you must be

Chorus 2:  
Divine  
Girl, the way you know you make my sunshine  
From the shadows you can make the moon climb  
Ooh, the way you're loving me  
you're right on time

Divine  
Something that these words could never describe  
How I feel about you day and night time  
Everything about you girl is divine

Bridge:  
Baby, here in my arms  
Let the night linger on  
'Cause the magic of love is ours tonight  
Givin' strength to my life  
'Cause the lovin' is right  
Tell me, are you an angel, baby

Chorus 2
