

Earth, Wind And Fire, Evil

Maurice White & Philip Bailey

Evil, runnin' through our brain,
we and evil's about the same.
Bad blood through our body flows,
where's the love nobody knows.

Beauty in our face you see,
tryin' to hide all our misery, but
Evil, runnin' through my brain,
me and evil are about the same.

Evil... in our life
Evil... causin' strife

Lookin for a place to gild a little light
in our souls and minds
Maybe if we learn to pray
life would lend us sunshiny days.
And evil runnin' thru our brains
turn to love and won't be the blame.
