How can I know  
We're bout' our best  
When more than dreams

Defer to confess  
At our best there's worlds between  
What would we do  
And what we do to me and you  
Walk in our shoes

Never mind much  
Color of my skin won't well of how I've been  
Shouldn't we rather than

Supposin' bout' my name  
Supposin' bout' my game  
Suppose we're more the same  
Suppose you like me

And rather than -  
Supposin' my guilt to blame  
Or that I'll never change  
Suppose we share the pain  
Suppose you like me

What would improve  
The way we demonstrate  
I do-  
Commit such a love  
Regarding none except to/you ???  
Continue the bond  
Let workin' peace calm all storms  
Hold you like me

Never mind the  
Amount account owe won't stop how far we'd go  
If we would just rather than

Chorus
