

Earth, Wind And Fire, They Don't See

M. Davis

They don't see what ya are to me
Guiding light for all to see
Saw a man the other day
Said he was givin' up his babe
Gonna turn his back on god
Make his day twice as hard

People say I'm a fool
But can I really be
Say it really was white misery

Protestant, and Catholic, Arabs and the Jews
Gonna turn your back on God
But is it really true
Woman on the corner
She brings tears to my eyes
I really hate to see people ruinin' their lives

Well I'm readin' the news
Ain't nothin' changed, ain't nothin' new
Pain comes down like the fallin' rain
But you saw it and don't feel the same
When ya love, love with all your heart
From the very start...
