

Earth, Wind And Fire, You

Maurice White, David Foster & Brenda Russel

She was naive, and never knew
Back against the world--her dreams came true
There is a mirror in her eyes,
all the world with cherry painted skies
I would be a fool, not to notice who,
can make me want to give it all
Oh, and now, I'm a happy soul
that love has got a hold
And I know that love won't let me fall

You--light the way, you brighten up my day
You make me want to stay,
I guess you know that I'm in love with you
It's true, you changed my point of view,
and now I look at life, the way you do,
with a beauty shining thru

When I am true with my dreams
life is so sincere, in what it means
I am truly hypnotized--with a love
that took me by surprise
I would be a fool, not to notice who,
can make me want to give it all
Oh and now, love is so profound.
I need your love around to open yp,
this lonely heart

You--light the way, you brighten up my day
You make me want to stay,
I guess you know that I'm in love with you
It's true, you changed my point of view,
and now I look at life, the way you do,
with a beauty shining thru

You-light the way, you brighten up my day
You make me want to stay,
I guess you know that I'm in love with you
It's true, you changed my point of view,
You make it all seem right,
I'd love to share my life, with you
