

# Earth, Wind And Fire, You Are A Winner

Beloyd Taylor

Cha Cha Cha

When you're feelin' that you're movin' up  
Always someone tries to make you stop  
When you're filling up your cup  
Someone comes around to spill every drop

When everything's going strong  
And someone doesn't like what you do  
They'll try to make you feel you're wrong  
Pull the rug from your feet before you're through

And if you follow carefully  
The flow of your energy  
You will start to see  
That you are a winner

Cha Cha Cha

When you're filling up your cup  
Someone comes around to spill every drop  
There is no time for wondering  
You're a winner as every day begins

And if you follow carefully  
The flow of your energy  
you will start to see  
That you are a winner

You are a winner  
You are a winner
