

Earth, Wind & Fire, Cruising

Philip Bailey, Roxanne Seeman, Morris Pleasure & Sonny Emory

Melodies without a sound kissing you
Million miles up off the ground it's what you do..
Don't need no one to rescue me you feel so good
Nothing sends me there the way that you could

Cruising on a journey to your heart
Cruising every secret little part

When you're making love with me

I want to be lost in your love night and day
And let the sight of every star light the way

Cruising on a journey to your heart
Cruising every secret little part
Cruising to eternal mysteries
Cruising when you're making love to me

Making love with me
Rockets are blasting off
Time is set free
The way

You're making love to me

Cruising on a journey to your heart
Cruising every secret little part
Cruising to eternal mysteries
Cruising when you're making love to me
