

# Earth, Wind & Fire, Here Today And Gone Tomorrow

Philip Bailey, M. Sharron & G. Ballard

Wanting you, and watching every move  
Turns me all over  
Like a first time lover's woo

My heart's, your heart,  
And every time you hit that door  
There's a chance in a million  
I won't see you anymore

Though I never want to leave your side  
But we've got to realize we're

(Chorus)  
Here today and gone tomorrow  
Nothing lasts forever and a day  
(nothing ever lasts forever)  
Here today, and gone tomorrow  
This is too good to be real, and I never  
want to say good-bye

I reminisce and savor every kiss  
Every moment  
For in a moment we are gone

Cherish you, and when the night  
is through  
Starting all over,  
Spending it with you

It's so precious in the time we spend  
'Cause when it all comes to an end we're

(Chorus)  
Here today and gone tomorrow  
Nothing lasts forever and a day  
Here today, and gone tomorrow  
Your love is too good to be true and I  
never want to say good-bye

And when I look into your eyes  
I thank God that I'm alive  
I can never say I've missed  
All of the reasons we're  
Here today and gone tomorrow

(Repeat Chorus)
