Earth, Wind & Fire, Here Today And Gone Tomor

Philip Bailey, M. Sharron & English G. Ballard

Wanting you, and watching every move Turns me all over Like a first time lover's woo

My heart's, your heart, And every time you hit that door There's a chance in a million I won't see you anymore

Though I never want to leave your side But we've got to realize we're

(Chorus)
Here today and gone tomorrow
Nothing lasts forever and a day
(nothing ever lasts forever)
Here today, and gone tomorrow
This is too good to be real, and I never

I reminisce and savor every kiss Every moment

For in a moment we are gone

want to say good-bye

Cherish you, and when the night is through Starting all over, Spending it with you

It's so precious in the time we spend 'Cause when it all comes to an end we're

(Chorus)
Here today and gone tomorrow
Nothing lasts forever and a day
Here today, and gone tomorrow
Your love is too good to be true and I

And when I look into your eyes I thank God that I'm alive I can never say I've missed All of the reasons we're Here today and gone tomorrow

never want to say good-bye

(Repeat Chorus)
