

# Earth, Wind & Fire, Moment Of Truth

We're goin' round  
Tryin' to get higher  
Better come down  
There's gonna be a fire  
We're goin' round  
Tryin' to get higher  
Better come down  
There's gonna be a fire

Smother that, hey  
Smother that, hey y'all

The moment of truth is near  
And my body trembles with fear  
Just like you I'm a guilty one  
Thinkin' bout nothin' but havin'  
me some fun

Time's drawing now no place to hide  
Hide hide hide hide.

We're goin' round  
Tryin' to get higher  
Better come down  
There's gonna be a fire  
We're goin' round  
Tryin' to get higher  
Better come down  
Gonna be a fire.

Smother that, hey  
Smother that, hey y'all  
We all got to do our part  
Lend a hand and open up your heart  
It's all up to me and you  
We gotta get ready for the moment of truth.

Come on down, come on down,  
come on down  
Come on down, come on down  
come on down

(repeat to end)
