

Earth, Wind & Fire, My Love

Maurice White & Wayne Vaughn

Here we are, just who we are
Chances are we'll be the stars
Reflection in each other's eyes
Image of where our love will rise

Making up for time we lost
You and I have paid the cost
Time we spent away so long
Seeking out the right from wrong

Be my love, baby--my love
Be my love, baby--my love
And we know it's for sure in the night
Won't you be my love

Seven nights and seven suns
Spreads the time it all begun
Baby please look in my eyes
End this doubt I have inside

I can teach you wonders of
Life and love and all it does
Show me how to give to you
That which makes your dream come true

Be my love, baby--my love
Be my love, baby--my love
And we know it's for sure in the night
Won't you be my love
