

# Earth, Wind & Fire, Pass You By

&lt;Dont let love, pass you by  
pass you by  
dont let her pass you by  
Dont let love pass you by

theres been many of days, and many of nights, ive wanted to play in  
your garden of love.  
to love you, dont let love...  
see, but I almost let you slip away  
but something tapped me on my shoulder to make me stay (sun goddess)  
to love you, dont let love, please dont, dont let it pass you by.

Chorus

There aint much good in any goodbye  
especially when, youve fallen in love  
youve fallen in love  
well, and the simple things, made you feel this way  
and simpler things caused those feelings to change  
years from now, youll reach for her, and shell be gone

Chorus

I find her in a warm place  
destined love should not be chased  
give her the utmost respect  
tell her shes your superstar

no good ones are hard to find  
less good hardly starts in mind  
the one who always has tried to be by your side on cold days  
she loves you and cares that you will be forever and ever happy

Chorus to fade&gt;
