

# Earthlings?, Nothing

Standing with the mist on my face  
a flick, a flick, a flick away  
i just can make you out in the haze  
where the day animals play  
but I can't see the sky  
must be a million miles away  
on another day  
the pain go on by you  
and where's my shadow  
swinging in the hammock of a long hot summer  
and now it looks like it's-a gonna rain  
but I just can't afford that pain
