

Earthlings?, Unicorn

Woo!
Out there
Out there
Woo!
Out there
Woo!
Out there
Woo!
Out there
Woo!

Light up the skies with your comet eyes
For the stars and the sun
Now you can't see for a while
Catching glimpses of the Day-Glo
Ten thousand blind mirrors in wait

Blinded somewhere
Out there
Out there
Let's hear it for the universe
Let's hear it for the unicorns
Let's hear it for the unicorns!

And I caught you
And I caught you
And I lure you there
From this fool
Confetti tears
They drop this way
Take to the skies like fire flies
We're catching windows from our rainbow

Blinded somewhere
Blinded somewhere
Out there
Out there

Let's hear it for the universe
Let's hear it for the unicorns
Let's hear it for the unicorns
Let's hear it for the unicorns!

Words collide, we're back in the sky
And now's the downpour
And are you out there, yeah?
Maybe some can wield that evil
A thousand years as a ?
Blinded somewhere

woo, woo
sunshine and rain
woo, woo
sunshine and rain
woo, woo
sunshine and rain
woo, woo
sunshine and rain
woo, woo
sunshine and rain
