

Earthlings?, Waterhead

Hey!

It's time for the great escape
Run for higher ground
Gather your house of freaks
Roll all out of town

It's a convoy to planets where we're from
Follow the yellow balloon
Melt into the sea
Pull of the moon, the tides
water 'head of me
the flood, flow
water 'head of me

Fill your mind, safe
For them to track you down
Free your space face
from that permanent frown

It's a convoy - planets where we're from
Follow the yellow balloon
Spirits to the sky
Pull of the moon, the tides
water 'head of me
the flood, flow
water 'head of me

waiting to be set
in the water, getting wet
you'll feel better

waiting to be set
underwater you can bet
you'll breathe better

waiting to be set
in the water, getting wet
you'll feel better

waiting to be set time for the great escape
underwater you can bet
you'll breathe better

waiting to be set it's a convoy
in the water, getting wet
you'll feel better

waiting to be set follow the yellow balloon
underwater you can bet
you'll breathe better

melt into the sea
