

# Earthsuit, 123

We're coming with the one two three  
Everybody singing do re mi  
with the earth s-u-i-t  
Tonight we're making history

## Verse 1

It's been a long time coming; now we're here  
Came to cut off the hands of fear  
Like a dangerous dream, you'll see  
We'll numb the pain from the right of the brain till it's free

We're coming with the one two three  
Everybody singing do re mi  
with the earth s-u-i-t  
Tonight we're making history

## Verse 2

Stop your thought processing for a while;  
That computing is out of style.  
Join the new sound regime where we  
set to intake from a place that our eyes haven't seen

## Bridge

Ya'll can get down, flip wild, supadelic child.  
Ya'll I've been out for a while star wishing  
Listen to the sound; in my heart is an unchained melody  
Ability to purify a devil's infidelity  
Time again I hear that same old same old  
I rest my head to wake up; same old same old  
I go to the Rock with my one time shot  
Dilemma turned fable from the elements of my fathers table  
No label could ever say what's inside me  
This love that won't depend on whether or not I say I'm sorry  
And it's all around here for everybody  
History will be made tonight.
