

# Earthsuit, Said The Sun To The Shine

I'm like Parhelion, Earth's daystar  
I'm like a luminary wizard, just like you are  
I'm like a night incinerator, burning time  
I got planet's radiating, solar system in the waiting  
Integrating life lines carry on with your shine, shine

Everyone knows whether night or day  
Find the light of dawn, you will carry on  
Everyone knows whether night or day, carry on, carry on

Said the Sun to the Shine  
Said the Sun to the Shine  
Come shadow what you find  
Said the Sun to the Shine

Said the Sun to the Shine  
Said the Sun to the Shine  
You and I forever bind  
Said the Sun to the Shine

I am the light of life the brilliant morning star  
And I have made you in my image  
I am just like you are  
Be my reflection to this world  
You're my unique design  
I got planet's radiating, solar system in the waiting  
Integrating life lines carry on with your shine, shine  
Said the Sun to the Sunshine  
Said the Sun to the Sunshine
