

# Easily amused, Only a girl

I am discouraged  
I have a fear  
I can hide in a room for a year  
I've got the brains  
I've got the guts  
I'm a shooter when it comes to my looks  
Then I'm up and down  
Then I'm all around  
I'm your friend one minute and I'm off in the next  
I'm up and down  
I'm all around  
I've got a moody reflex

Chorus:

I am only a girl who suffers like you  
I have just the amount of patience that you do to  
I have the courage to be brave  
I can conquer anything  
But something's got me trapped inside  
I'm like a man  
I take a stand  
I don't care what anybody thinks  
I've got the means  
I do the work  
I bury all my feelings in the dirt  
Then the tricky part crushes my thin heart  
I'm afraid one minute and I lose in the next  
The tricky part crushes a delicate spot  
I've got a moody reflex

Chorus

Och...

I like me the way I'm made up yeah  
I'm not gonna change my way  
I like it, I like it  
I am only a girl who suffers too  
I am only a girl who suffers like you  
I have just the amount of patience that you do to  
I am only a girl who's brave and true  
I am only a girl in the world
