

# Easily amused, Singing for your love

A thousand miles away  
I thought I heard you say  
How'd I get so lucky to be with you?  
All this time apart  
Weighs heavy on my heart  
Now I'm calling out to say  
Singing for you love  
Can you hear me tonight?  
This picture of your face  
My only saving grace  
Since the day we said goodbye  
I'm holding on to you  
In everything I do  
Til you come home to me  
Singing for you love  
Can you hear me tonight?  
You can pick me up  
When all my stars go out and fly away  
(You can pick me up and fly away so high, I can't describe it)  
Singing for you love  
Can you hear me tonight?  
Can you feel me tonight?
