

Easily amused, Song for Belfast

I went to your country
Me a back pack and a friend
We took a plane to the north
It's such a beautiful land
I saw you walking downtown
Building's been bombed all around
I came along wrote a peaceful song
I wonder what's gonna happen to you (2x)
It's a shame that you're mad
Posting flyers and flags
City divided not to cross
The lines of people lost
Somehow it seems so easy
I don't understand all the fuss
I came along wrote a peaceful song
I wonder what's gonna happen to you (2x)
Then I saw you there at the corner of the street
Wonder where you've been what you think of me
Am I deeper then a flag in your community?
Am I really?
Yeah
I came along wrote a peaceful song
I wonder what's gonna happen to you
