Easily amused, Song for Belfast

I went to your country Me a back pack and a friend We took a plane to the north It's such a beautiful land I saw you walking downtown Building's been bombed all around I came along wrote a peaceful song I wonder what's gonna happen to you (2x) It's a shame that you're mad Posting flyers and flags City divided not to cross The lines of people lost Somehow it seems so easy I don't understand all the fuss I came along wrote a peaceful song I wonder what's gonna happen to you (2x) Then I saw you there at the corner of the street Wonder where you've been what you think of me Am I deeper then a flag in your community? Am I really? Yeah I came along wrote a peaceful song I wonder what's gonna happen to you
