

# East 17, It's Alright

open the mind and unlock the door  
so the soul can know what the heart beat come 4  
free the spirit that roams within  
the mind confined yet designed to win  
we gonna move  
and we'll prove  
that we don't hold back  
a little love in the land  
is what we lack  
and it's a fact when a brother  
like me says so  
huh let it all go  
gonna be alright  
gonna be alright  
gonna be alright  
gonna be alright  
gonna be alright  
gonna be alright  
it's all alright  
it's alright  
it's really alright  
it's all alright  
it's alright  
it's really alright  
don't u worry  
cos it's alright  
don't u worry  
child of the night  
cos in the morning come with the new day sun  
love and everlasting light  
it's all alright  
it's alright  
it's really alright  
rock 2 the beat to the beat quick step  
move 2 the rhythm to the rhythm come check  
don't follow me  
let's walk together  
on the path of love 4 ever  
never looking back  
keep on keeping on  
cos the path of life  
is as hard as long  
but that's alright  
that's OK  
love is by our side  
'til our dying day  
walking down a road  
that seems to go nowhere  
walking down a path  
it seems 2 never end  
looking for the answers  
2 all of your problems  
the love that's in your heart  
is the answer my friend  
it's all alright  
it's alright  
it's really alright  
it's all alright  
it's alright  
it's really alright  
no don't be so sad  
cos I'm right by your side
