## East 17, Someone To Love

First Thing in the morning when you just arrose your eyes still closed Your getting up, your feeling down, maybe it cos your beds creased on one side you can't hide your face was smiling while you heart wears a frown Always moving on, no place to go home living alone why should it have to be this way?

chorus- We all need someone to love, we all need someone to love holding and kissing you when you go missin you Keeping you warm from the cold of the night We all need oh someone to love

your running your hiding you hurt inside for memories you can't get away from the pain in your heart tossing your turning you'll see all you would learn in a childhood dream can keep it together while your world falls apart your just like them, they don't agree, living alone why does it have to be this way?

repeat chorus

holding and kissing you when you go missing you keeping you warm from the cold of the night and to be your companion its all understanding your every need to be alright holding and kissing you when you go missing you keeping you warm from the cold of the night and to be your companion its all understanding your every need to be alright

we all need someone to love (repeat 6 times) holding and kissing you when you missing you keeping you warm from the cold from the cold of the night we all need oh someone to love (to fade)
