

# Eaton Chris, Old Friends

There's a ring around the moon tonight  
And chilling wind  
But I don't have to be afraid  
Cause we're old friends  
There's a heartbeat of our Mother Earth  
And it's so deep within  
Oh, and I'm never short of company  
Cause we're old friends

Chorus:

So let it snow 'til it's ten feet deep  
Let the mist roll in  
'Til I am too blind to see  
Let the waters rise  
Encircling me  
Old Friends -- we'll always be  
And Heaven is a perfect place  
At the journey's end  
Oh and I'm looking forward to that day  
Cause we're old friends

(Chorus)

Old friends ... you and me  
Old friends ... we will be  
Old friends ... you and me  
Old friends ... we will be  
Old friends ... you and me  
Old friends ... we will be
