

Ebn Ozn, Stop Stop Give It Up

When your favorite tangerine dream has long died
Lucy dropped the diamond
You're uncertain and your spirit just whispers inside
Look behind the curtain

Chorus:

Stop, stop, give it up

Stop, stop, give it up

Give it up

Stop, stop, give it up

Stop, stop, give it up

Give it up

When the fear has turned our your love till it's dark

Breathe the golden light in

And you'll fly to Strawberry Fields, Central Park

The Holy Man's been writing

repeat chorus

There are colors that none of us ever have seen

The '70's' are over

Now its time for infinite shades of green

Better move over, rover

repeat chorus

Om, om, om...
