

Echo Image, Neverending Land (Echozide Mix)

I know this place up in the sky
We can go there if we fly
Lets take a trip to Neverending Land

I know it isnt very far
Ive been there many times before
Imagination is the only door

When you cry
Come with me and fly
Up in the sky
Where we can talk
Dont ask me why

Lets take a trip and fly
Up in the sky
Well watch the world
Pass us by

Dont be afraid to let it go
Try it and youll never know
How its like to be in a strange land

If you ever feel a doubt
And dont know what its all about
Ill take you to another state of mind

When you cry
Come with me and fly
Up in the sky
Where we can talk
Dont ask me why

Lets take a trip and fly
Up in the sky
Well watch the world
Pass us by
