Echo & The Bunnymen, Nocturnal Me

In an ice-capped fire Of burning wood In our world of wire Ignite our dreams of starry skies And you and me As realised our bigger themes

Oh, take me internally Forever yours Nocturnal me Take me internally Forever yours Nocturnal me

Do or die What's done is done True beauty lies On the blue horizon

Who or why What's one is one In pure disguise Of vulgar sons

Oh, take me internally Forever yours Nocturnal me Take me internally Forever yours Nocturnal me

Whatever burns burns eternally So take me in turns internally When I'm on fire My body will be Forever yours Nocturnal me

In an ice-capped fire Of burning wood In our world of wire Ignite our dreams of starry skies And you and me As realised our bigger themes

Oh, take me internally Forever yours Nocturnal me Take me internally Forever yours Nocturnal me
