

# Echobelly, Fake

My love don't despair,  
There's no other could compare,  
Only lust can come between us,  
And I know you wouldn't dare.

Oh, oh yes I know, oh,  
Ah ha there's no other,  
Only only you can do it better,  
Only only you can do it better,  
Only you.

My love you're not there,  
They're betrayal in the air,  
You're a cheater you're a liar,  
Smell the perfume in your hair.

Oh heaven knows oh,  
Ah ha here's the other,  
Only only you can do it better,  
Only only you can do it better,  
Only you.

Only fools do it better,  
We leave the fakes behind,  
Only fools do it better,  
We leave the fakes behind,  
Only only you can do it better,  
Only only you can do it better,  
Only you, you.
