

# Econoline Crush, By The Riverside

walking into a new frontier  
taking three four steps and i'm out of here  
don't go so fast  
got to get it right  
bring it to me slowly  
I got to make it last  
I take a ride on the winds of change

I take my chances and I hope it pays

push it to the limit  
the limits they change  
sitting by the riverside  
watch it all go by

then they change  
ain't gonna lose if I play the game  
i'll tell it to you slowly  
make the rules  
I got to make things right  
make sure you know  
you're going to understand  
I take a ride on the winds of change

I take my chances and I hope it pays  
push it to the limit  
the limits they change  
watch it all go by

sitting by the riverside  
karma comes from within and it isn't  
i'll tell you something  
there is something that you're missing  
the trash you talk  
I got a life and i'm living it  
kicking at the walls  
till the light punches through  
and the lies you're spinning  
got to get a religion  
give the devil his due  
standing at the crossroads  
your hat in your hand  
jump in the river man
