

# Ed Bruce, Give More Than You Take

If you wanna keep a love young always show her that you care  
Call her through the day to say you love her always thinking of her  
Give her just a little more love than you take

If you sometimes seem to hurt her then you mustn't let love die  
Take her head on your shoulder pet her say you're sorry to let her cry  
Give her just a little more love than you take  
Like the rain filling water that the sun takes from a lake  
If you give more love there'll always be than much more to take

Just remember your time's coming when you'll need someone to lean on  
So give love with a smile and she'll make it all worth while  
Always by your side to give you more love than she takes  
Like the rain filling water...  
If you wanna keep a love young...  
Call her through the day...
