

Ed Bruce, Love's Found You and Me

Just as sure as there's gold in California
A jukebox in Texas guitars down in Tennessee
Just as sure as a peach grows in Georgia
We gonna make it love's found you and me

It's been a long time long time to comin' and you tried other so have I
But love never touched me till you touched me
And you never saw love till you saw it in my eyes
Just as sure as there's gold...

[dobro - guitar]

You can look too hot and overlook it never see the forest for the trees
Run your race too fast and never win it
But if love is a gamble they won't bet on you and me
Just as sure as there's gold...
Just as sure as there's gold...
We gonna make it baby love's found you and me
