

Ed Sheeran, Spark

Utwór 'Spark' z albumu 'Subtract' od Ed Sheeran (premiera 5 maja 2023r.)

We've been lost for a long time
And there are no escape signs
And for love, we were so bling
Oh, I hate to see you cry
As we turn to a true light
Now it's clear as a blue sky

Like a man they overdid, the past will try
We couldn't the fate to send me on the night

We'll build a fire
Touch our own life
And hope the spark survives
'Cause we're just living
Around the night sky
With the memories to the light
Hope the spark survives
Yeah, we hope the spark survives

Oh, I wonder what we go through
All we ever do is argue
We never love but we make do
How I wish you wouldn't say that
And there are things you can't take back
When you leave I always will expect

Like a hand, I'm trying to hold the water back
And softly the oceans leans in the cracks

We'll build a fire
Touch our own life
And hope the spark survives
'Cause we're just living
Around the night sky
With the memories to the light
And hope the spark survives
Yeah, we hope the spark survives

We've taken roads
They led to confusion
But right now it don't matter at all, na-na
Oh, when you're back
Our love's no illusion
The higher we go, the higher we fall

We'll build a fire
Touch our own life
And hope the spark survives
'Cause we're just living
Around the night sky
With the memories to the light
And hope the spark survives
Yeah, we hope the spark survives
Yeah, we hope the spark survives
