Amethyst found Thunder Bay
Molten born to paper weight
A package found
It's way here today
All the way from Ontario

So we go on about our lives
Under other London skies
Christmas calls
Postcard replies
All the way from Ontario

And the lights are shining around this harbour
And the lights are shining around this harbour

Do I miss you? Yes I do
Cautious eyes of iris blue
You went away
To be someone new
All the way to Ontario

And the lights are shining around this harbour
And the lights are shining around this harbour

Amethyst found Thunder Bay
There are those who can not stay
I'll come and visit you there one day
All the way to Ontario
All the way to Ontario
All the way to Ontario
