

# Eddie And The Tide, Power Play

They're out of order in war  
They're out of order in love

They need to feed, they both agree  
The hawk and the dove

But don't get mad, get even  
And don't let 'em get to you

I never promised  
It was fair and true  
Before they're through  
They'll have me hunting you

It's not important

Good and evil  
They're neck and neck  
Bases loaded  
And there's three on left

We're in the final quarter  
And it's running out  
You'll need a father  
Like there's no time out

He'll lift you out of the cradle  
Help you into the grave

But don't be fooled by all the rules  
And don't be the slave

You take a chill pill, and, baby  
Relax, float downstream

Life is no rehearsal  
You know what I mean  
And freedom seems  
To be a far-off dream

It's not important

Good and evil  
They're neck and neck  
Bases loaded  
And there's three on left

We're in the final quarter  
And it's running out  
You'll need a father  
Like there's no time out
