

Eddie Vedder, Picture (feat. Elton John)

A picture tells a thousand words
Some of them were mine
Combing through the evidence
Afraid of what we'll find

The sun could lift us up
Should this thunder ever stop
There's no over, there's no under
There's no shame

Picture of love
We were a picture of love
The measure of our years
So deep and wide

Picture of hope
We were a picture of hope
Standing close together
Side by side

If we let the darkness of these times break us
Oh-oh-oh, that would truly be the crime
Did I cause the sadness in your eyes?
Oh, allow me please to ease your troubled mind

Picture of love
We were a picture of love
The measure of our years
So deep and wide

Picture of hope
We were a picture of hope
Standing close together
Side by side

Strangers they walk past
With eyes of one-way glass
Thinking what's hidden
Will someday pass

Somewhere down below
The will to not let go
Our hearts fit together
'Cause they're broken

Picture of love
We were a picture of love
The measure of our years
So deep and wide

Picture of hope
We were a picture of hope
Standing close together
Side by side, yeah

Picture of love
We were a picture of love
The measure of our years
So deep and wide

Picture of hope
We were a picture of hope
Standing close together
Side by side

Yeah
